

Name: Alsayed Anwar Mustafa

Consultant chemical engineer in process deign &chemical plants developent

Education: Bsc in chemical engineering from Alexandria University

Graduation year: June 1970 with grade good

Mobile + 201223166854

Email: alumsulfate@gmail.com

Areas of expertise

From 1971- 1978

The Egyptian Chemical Industries – KIMA

The main Products include:

1-Ammonium nitrate - high density

2-Pure Ammonium Nitrate - low density

3-Ferrosilicon alloy

Aswan –the High Dam way

Tel: 002097/2314445 - 2314501 – 2314500

Fax: 002097/2314505

As first engineer in

1- Hydrogen gas production by water electrolysis 36,000m3/h

2- Water demineralization

3- Caustic soda and hydrochoric acid production by electrolysis

4- As lecture in kima high institute for technology

From 1978 - 1988

Egyptian plastic company (private sector)

Plastic products & recycling

Worked as plant manger

From 1988 - 1998

Egyptian Aluminum Sulphate Co of Egypt (ASCE)

The company is considered one of the largest companies in the Middle East and Africa in the production of aluminum sulfate, with production capacity 300,000 t/y

Aluminum Sulphate Company of Egypt SAE was founded in 1986 and is based in Cairo, Egypt. Kemira kemi Finland is partner in ASCE

Raw materials used for production

1- Calcined kaolin

2- Aluminum trihydrate

MY POSITION

*****EXECUTIVE PRODUCTION MANAGER**

***** I TRAINED IN KEMIRA KEMI PLANTS IN USA, SPAIN FOR PRODUCING ALUMINUM SULFATE FROM UNCAINED KAOLIN**

FROM 1998 - 1999

UNITED COMPANY FOR CHEMICAL INDUSTRIES (EGYPT)

PRODUCTS SOLID ALUMINUM SULFATE 50,000 T/Y

MY POSITION

I worked as a factory manager responsible for the installation and operation of the plant

FROM 1999- 2011

National Company for urea melamine formaldehyde molding powder (Egypt)

This is owned by national bank of Egypt till 2011 then sold to Egyptian investor

Products

1-melamine formaldehyde molding powder

2- Urea formaldehyde molding powder

3- Urea formaldehyde glue

My position

Executive Production Manger

From 2011 – till now

Tayseer Al Sheikh Phosphates Products

Tayseer Al Sheikh Phosphates Products Factory stands in the business segments of Chemicals and Fertilizers. Tayseer Al Sheikh Phosphates Products Factory manufactures a wide range of fertilizers and Chemicals, Making rising as leader in its addressable markets.

Tayseer Al Sheikh Phosphates Products Factory has also ventured into the retail business setting up more locations in the agricultural and Chemical Industry.

Tayseer Al Sheikh Phosphates Products Factory is located in Yanbu Industrial City, Light Industrial Park, Yanbu, Saudi Arabia.

It is a complex of three plants: (1) Sulfuric Acid Plant (To manufacture Potassium Sulphate and Di Calcium phosphate) (2) Potassium Sulfate Plant (3) Di Calcium Phosphate Plant The purpose of this complex is to produce various fertilizers products & other by product chemical products, distribute inside Kingdom & export outside Kingdom.

Company Name: Tayseer Al Sheikh Phosphates Products Factory

Address: Madeena Commercial Center

Zip/Postal Code: 19865

City/Region: Jeddah

Country: Saudi Arabia

Telephone: 966-02-6630703

Fax: 966-02-6613038

My position

The technical consultant for the group

Projects I supervised and provide technology transfer

1- Continvest Ltd company Bulgaria

Continvest Ltd is the main importer in Bulgaria of chlorine- alkaline products (hydrochloric acid, caustic soda liquid, methylene chloride).

In 2005 we built an installation for spilling of liquid chlorine in drums and cans and started the production of sodium hypochloride and ferric – chloride for treatment and purifying of waste and fresh waters.

In 2008 we started the production of aluminium sulfate – liquid and in 2009 –of aluminium sulfate – solid for waste and fresh water treatment.

All the products used for purifying of potable water (chlorine, sodium hypochloride and aluminium sulfate) are registered and certified by Bulgarian Ministry of health as per the valid European standards - EN 878 standard of EU

Contact Information

<i>Company Name</i>	<i>Continvest Ltd</i>
<i>Contact Person</i>	<i>Mr Tsvetan Tsvetkov</i>
<i>Company Address</i>	<i>Maior Jurii Gagarin Str, Sofia, Bulgaria</i>
<i>Postal Code</i>	<i>1113</i>
<i>Tel</i>	<i>359 2 9717028</i>
	<i>359 2 9717035</i>

I provide the technology and know-how for producing Liquid and solid aluminum sulfate

- 1-operation manual for production process*
- 2- Technical details for equipments needed for production*
- 3- Quality control procedure for final product & quality assurance during process stages*
- 4- Assistance for contacting companies for equipments purchase*
- 5- Startup production line*

2- Iraq (Kurdistan)

I assist Kurdish investor in Iraq for fesiabilty study for solid aluminum sulfat

Production line 50,000 t/y & fesiability study for sulfuric acid plant 50,000t/y

3- Saudi Arabia

Saf Sulphur Company

Saf sulphur factory for agricultural and industrial with license number 2556 issued in Riyadh, Saudi Arabia, started business operation in year 2009 after years of thorough planning, research and development.

Our main office and factory is located in new 2nd industrial area in Riyadh having branch office in dammam city near sea port area. In just a short period of time, we gained local and international acceptance and recognition of having excellent products and management services.

We established global export and import cooperation from Middle East countries to Africa, Asia, and Europe and have reached as far as north and South America. We also positioned ourselves as an active member of the premier membership centre of riyadh chamber of commerce and industry and have been awarded as iso9001:2008 compliant and also been certified by the saudi quality council.

Contact Details

Mr. Nasser S. Al Sahli

Address: New 2nd Industrial ArearnP.O. Box 70482 Riyadh Zip 11567, Kingdom of Saudi Arabia, - 11567, Saudi Arabia

Telephone: 966-11-2428722

Fax No: 966-11-2428733

Mobile Phone : 966-505869170

I prepared feasibility study

1- Aluminum sulfat liquid and solid

2- Polyaluminum chloride liquid

3- Calcium chloride liquid

4- Zinc sulfat

5- Copper sulfat

United staets

I prepared the feasibility study for solid aluminum sulfat 50,000 t/y for

Name: Stephen L Gowan

Company: Gowan Law Office

Admit Date: 04/25/1991

Address: Rte 1 Box 111D

Sallis, MS 39160

Mailing Address: P O Box 629

Kosciusko, MS 39090-0629

Phone: (662) 290-0042

Fax: (662) 290-0042

India

I prepared the feasibility study and knowhow for solid aluminum sulfat 50,000 t/y for

Sree Rayalaseema Hi-Strength Hypo Ltd

Egypt

*** Approval of a consultant engineer from the Egyptian Engineers Syndicate in the field of process design and chemicals plants development since year 2000

*** I prepared a study for producing potassium sulfat without using Manheim furnace

*** I prepared a study for producing potassium sulfat from polyhalite
