HILLKOFF Arabica Coffee from Thailand

The misty mountains of the North of Thailand host the country's main coffee-producing area. Buoyed by growing domestic consumption, Thai arabica coffee, with its strong aroma and low caffeine content, is also attracting foreign interest. Nestled in the lush province of Chiang Mai, Hillkoff is a family business whose history spans 50 years, from commodity trading to high-quality coffee production and a unique zero-waste up-cycling model.
