

The Patented Weekly Trash-Bin Freshness Platform

**ONE BIN
ONE FOGGER
EVERY TRASH PICKUP**

PATENTED FORMAT

Protected product architecture creates a differentiated single-use application for enclosed outdoor waste containers.

RECURRING CONSUMABLE

Designed for use after each trash pickup - creating repeat-purchase potential rather than a one-time durable-goods sale.

COMMERCIALIZATION READY

Product, tooling, packaging, and supply-chain capabilities are established for scalable market execution.

PLATFORM EXTENSIBILITY

The core system can support fragrances, colors, pack sizes, seasonal SKUs, and future household or commercial applications.

STRATEGIC LICENSING OPPORTUNITY

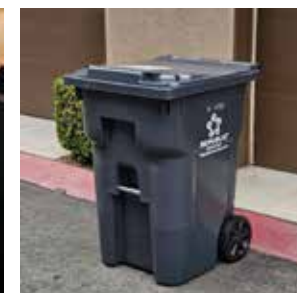

For partners with established home-care, odor-control, waste-management, manufacturing, distribution, or mass-retail capabilities.

- Exclusive or field-specific licensing
- Strategic commercialization partnership
- Brand integration or co-branding
- Distribution partnership
- Other mutually beneficial commercialization structures

RETAIL-READY PACKAGING | EXPANDABLE SKU PLATFORM

SIMPLE CONSUMER ROUTINE

UP TO 7 DAYS OF FRESHNESS | DESIGNED FOR WEEKLY USE

Detailed technical, manufacturing, and commercial information can be provided during further discussions as appropriate.
